-A pair is usually two things that go together ( a pair of gloves, a pair of socks, a pair of shoes). But sometimes a pair is one thing ( a pair of glasses, a pair of scissors, a pair of trousers)

-What is the difference between even numbers and odd numbers?

**Read these conversations and tell what the underlined idioms mean.**

1. I like working for Mike, but he does everything by the numbers. He doesn't like to fudge the rules.

2. My coworker's father is in the hospital for the third time this month. He's not doing well. I'm afraid his days are numbered.

Yes, it sounds like his number is up.

3. How did you know I would ask Maria out? Oh, I've got your number, Dan. I know what you are up to.

4. I wonder why Matt didn't come to the party? There could be any number of reasons.

5. I bought a new copier, printer, scanner all rolled into one.

6. The crowd stood as one and cheered the player as he limped off the field.

7. At the eleventh hour Congress negotiated a deal to pay the government's debt.

8. Silver rings like that one are a dime a dozen. I think you should look for something more unique.

9. I volunteered to work at the homeless shelter for a few hours this Saturday. Would you like to come with me? I'll do you one better. I'll volunteer the whole day.

10. I, for one, do not believe the current Congress is capable of compromising.

11. I will pay for your dinner. Oh, no. Let's go fifty fifty. (also half and half)
