Jane: I have a prescription. What do I do with it?

Pharmacist: I am a pharmacist. I will fill your prescription.

(Later)

Pharmacist: Here is your prescription Mr. Smith. Have you ever taken this drug before?

Jane: No, I haven't.

Pharmacist: It is an antibiotic. It will help your sinus infection. You must take it with food. It can cause nausea if you take it on an empty stomach.

Jane: How often do I take it.

Pharmacist: You will take three doses a day. One with each meal. The doctor also wants you to get this cough medicine. It is over the counter. That means you don't need a prescription. You will find it on aisle 2. You can check out with the cashier up front.

1. Who filled the prescription.
2. What kind of drug was it?
3. What did the pharmacist warn Jane about?
4. How many times must she take it?

Dr. Smith: What symptoms do you have Mrs. Jones?

Mrs. Jones: My nose is stopped up. I have a bad headache. My throat hurts when I swallow.

Dr. Smith: Have you been running a fever?

Mrs. Jones: I did not take my temperature, but I don't think so.

Dr. Smith: Open your mouth and stick out your tongue. Your throat looks red. Are you coughing?

Mrs. Jones: A little at night. I don't cough in the daytime.

Dr. Smith: Mrs. Jones, I don't think you have a cold or the flu. I think you have allergies. There is a lot of cedar in the air right now. You should stay inside. You can take Claritin. It is an allergy medication. It will help your symptoms. Drink plenty of water and get lots of rest.
