

FUMC ESL 2-13-2012 Intermediate Lesson

I. Look at vocabulary numbers 1-8. These are doctors who specialize. In other words, they are specialists in treating certain problems. Match the specialists with the problem.

If you:

- 1. have eye problems go to _____
- 2. have heart problems go to _____
- 3. have mental problems go to _____
- 4. are a child go to _____
- 5. problems with internal organs go to _____
- 6. need x-rays go to _____
- 7. are pregnant go to _____
- 8. have cancer go to _____
- 9. have female problems go to _____
- 10. have bone problems go to _____

II. Look at vocabulary 9 and 10, 13, 14, 15, 16. These are health care workers. They are not doctors. Match the statements to the pictures.

- ___ A surgical nurse helps the surgeon during surgery.
- ___ A registered nurse takes care of patients.
- ___ An admissions clerk checks you into the hospital.
- ___ A dietician plans the food that will be served to patients in the hospital.
- ___ An orderly transports patients around the hospital.

III. Look at vocabulary 17-34. Fill in the blanks.

- 1. A _____ works in the hospital for no pay.
- 2. The patient wears a _____.
- 3. The patient has an _____ in his arm.
- 4. The patient needs to use the restroom. The patient cannot get out of bed. He needs a _____.
- 5. The nurse is writing on the patient's _____.
- 6. The patient lies in a _____.
- 7. The patient pushes the _____ for help.
- 8. The patient can raise the bed with the _____.
- 9. The _____ shows the patient's heart rate.
- 10. The pills on the table are the patient's _____.
- 11. The _____ draws blood. He draws blood for a _____.
- 12. Body fluids that are not needed are thrown away in _____.
- 13. RN means _____.
- 14. IV means _____.
- 15. ER means _____.
- 16. EMT means _____.
- 17. An _____ puts the patient to sleep.
- 18. Everyone in surgery wears a _____.
- 19. The patient lies on the _____ during surgery.

20. The doctor and nurses wear _____ on their heads.
21. A doctor who performs surgery is called a _____.
22. Surgeons wear _____ on their hands.
23. The patient goes to the hospital in an _____.
24. The patient lies on a _____ in the ambulance.

IV. Correct the spelling mistakes in these words.

1. sturgeon _____
2. volunter _____
3. hopsital _____
4. blud _____
5. medisin _____
6. dietishun _____
7. patent _____
8. nerse _____
9. stretshur _____

V. Answer these questions in a complete sentence.

1. Is the patient using the call button now?
2. Is there medication on the bed table?
3. Is the nurse wearing surgical gown?
4. Is the volunteer carrying medication?
5. Is there a bed pan near the bed?
6. Is the patient on a stretcher?
7. Is the nurse drawing blood?

VI. What happens when you have an operation? Read this paragraph to find out. Then answer the questions.

An orderly will take you to the operating room. You will lie on a gurney (rolling bed like a stretcher). In the operating room, they will move you to the operating table. Your surgical team will be there (surgeon, nurse, anesthesiologist). They will wear surgical gloves, gowns and caps. All the instruments will be sterilized (cleaned of germs). During the operation, they will watch your vital signs (blood pressure, breathing and heart rate). You will have an IV attached to your arm. After surgery they will take you to the recovery room. When you wake up, they will take you to your own hospital room.

1. What are your vital signs?
2. Who will take you to the operating room?
3. What is a gurney?
4. What will the surgeon wear?
5. What will be attached to your arm?
6. Where will you go after surgery?
